The frames of the modular ConCept system allow ConCept modules to be attached. These frames are designed for sizes 3, 4, 6 and 8. Thus they can be fitted into corresponding enclosures of these sizes.
The fitting capacity of the frames ranges from 2 modules up to 7 modules. This allows the user to put together a custom connector assembly. .
The basic version consists of sturdy, one-piece modules frames available to the user in either polycarbonate or die-cast zinc
Frames are only compatible with each other when they are made of the same material and identical size.
